

# TEYIBA AMAN

## Full stack Developer

+251910761948 | teyibaaman68@gmail.com | Addis Abeba, Ethiopia, | [Portfolio](#) | [Github](#)

### Summary

Passionate Full Stack Developer with a focus on building scalable, user-friendly web applications using both frontend and backend technologies. Proficient in modern frameworks, databases, and API development, with a solid foundation in full-cycle software development. Currently pursuing a degree at Addis Ababa University, with a commitment to continuous learning and growth. Actively engaged in communication-driven initiatives and university clubs, strengthening both technical expertise and interpersonal skills through collaborative projects and leadership roles.

### Education

#### Addis Ababa university

BSc., Software Engineering

2022- Current

#### Relevant Courses:

- Data Structures and Algorithms
- Web/Mobile Development
- Object-Oriented Programming
- Critical Thinking
- Applied Mathematics I/II/III

### Work Experience

#### CodeSoft

Remote

Frontend Developer

Dec 2024 – Feb 2025

- Designed and implemented user-friendly interfaces optimized for performance and accessibility across devices. Utilized modern front-end technologies such as React to build clean, interactive layouts with responsive design principles, ensuring a consistent user experience on desktops, tablets, and smartphones.
- Connected front-end applications with backend services using RESTful APIs to fetch, display, and update live data. Implemented error handling, loading states, and real-time feedback to enhance usability.

#### Prodigy Infotech

Remote

Backend Developer

March 1, 2025 – April 5, 2025

- Designed and implemented RESTful APIs using Node.js and Express, enabling seamless communication between front-end clients and databases.
- Integrated and managed SQL and NoSQL databases, improving data retrieval efficiency and application responsiveness.
- Implemented secure user authentication and authorization systems using JWT and OAuth2, enhancing application security.

### Projects

#### Domestic Violence Reporting and Supporting System. [Github](#)

- UI/UX Design: Created intuitive, user-centered interfaces that enhanced platform accessibility and usability for victims and supporters, improving overall navigation experience.
- Frontend Development: Built the complete frontend using modern web technologies, delivering a responsive, accessible, and user-friendly interface across all devices.

#### Restaurant Order Management System. [Github](#)

- API Integration: Fetched data from the backend API to display real-time menu items, order details, and status updates
- Frontend Development: Designed and implemented an interactive, user-friendly interface tailored to both customers and restaurant staff, enhancing overall usability and efficiency.

### Skills

**Programming Languages:** Python, Javascript / Typescript, Java, SQL, HTML/CSS, Dart

**Frameworks & Technologies:** React, express, Flutter, Tailwind CSS, Bootstrap, MongoDB, REST APIs, SQL Database,

**Project Management & Collaboration:** Git, Github, Agile Methodologies, Team Leadership, Code Review, Documentation

**Language:** English( professional), Amharic(Native), Afan Oromo(native)
